Dear Health and Human Services Board Members:

Another year has come and gone, and upon further review, 2006 was not that much different from the recent past. Inpatient stays and out-of-home placements for children continue to be the issues that drive our budget. As in other years, we provided services to individuals and families in an attempt to prevent such placements. Fortunately, it often works, but not always.

As always, there are new issues and other items of interest that are incorporated into this booklet, but I believe the near future will bring more changes than normal. The same fiscal pressures we feel are felt nation-wide and are often the catalyst for change, but we will just have to wait and see what occurs and what ends up in future issues of this report.

You will see in this report the growth in the number of people served and units of service provided continued. What you may not see is how our local culture is changing. People are more sophisticated and demanding. There are many more providers with whom we need to communicate and coordinate. Our minority population is increasing. Unfortunately, it gets more difficult every year for the system to support the numbers and diversity, however, we have many dedicated employees that keep the process moving.

Thank you for your support,

Craig Johnson, Director
Oconto County Health and Human Services Director

### Notes

- The chart illustrates the financial summary for Oconto County's Department of Health and Human Services for the years 2005 and 2006.
- The total revenue includes contributions from collections, fund balance, grants, county levy, and state/federal sources.

The data shows a slight decrease in the collection and grant revenue from 2005 to 2006, while the county levy and state/federal revenue increased, leading to a higher total revenue in 2006.

Enteric Disease includes: Camplobacter, Salmonella, Shigella, E.Coli, Cryptosporidium, Yersinia, and Giardia.

Respiratory: Blastomycosis, Pertussis, Tuberculosis, Histoplasmosis, and Mumps.

Sexually Transmitted Illnesses include: Gonorrhea, Chlamydia, Syphilis, and Herpes.

Other includes: Lymes Disease, Hepatitis C, and Mycobacterial Disease.

Benchmarks have been established by the Center for Disease Control & Prevention to measure the progress towards raising the immunization levels for universally recommended vaccines in the community.

The immunization program has implemented population-based strategies to improve immunization rates around 2 benchmarks:

- Infants will have received their 4th dose of DTaP by 19 months of age.
- Infants will have received 4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B and 1 varicella vaccination by 24 months of age.

Example of strategies implemented:

- Support to health providers & schools to utilize the Wisconsin Immunization Registry (WIR).
- Provide consultation to health providers on vaccination recommendations as the schedule complexity has increased due to the number of recommended childhood vaccines.

2000 10 vaccines recommended
2006 14 vaccines recommended
2006 PUBLIC HEALTH DIVISION SUMMARY

The Women, Infant and Children (WIC) Program served an average of 576 clients per month, an increase of 27 clients per month from 2005 and 40 from 2004. Farmer’s Market Nutrition Program was available again this year. Through this program, WIC participants are given $15 in WIC checks to purchase fresh fruits, vegetables and herbs from local Farmer’s Markets and farm stands. The fresh produce purchased must be grown in Wisconsin.

109 reports of human health hazards/animal bites were investigated and action taken.

Oconto County SAFE Kids Chapter activities:

- Child Passenger Safety
  - 476 seats were inspected; 12% of the seats arrived installed correctly.
  - 271 seats were distributed to families
    - 113 boosters and 158 seats
    - 13% were free, 59% at reduced price, and 28% at regular price
    - 77 seats destroyed

- Delivering Fire Prevention
  - Local firefighters, food establishments, and the SAFE Kids Chapter partnered to serve 40 households (approximate 111 people) in 4 communities. They delivered:
    - pizza (on the fire engine)
    - fire prevention education
    - smoke detectors
      - 69 found working
      - 4 found not working

The Wisconsin Well Woman Program (WWWP) is a breast and cervical cancer screening program for limited income, uninsured or underinsured Wisconsin women ages 45-64. The program continued to serve 80 Oconto County women despite narrowing of the eligibility requirements and not allowing outreach by local coordinators. This number is higher than all previous years except 2005.

The Quality of Life Project continues to support and monitor several programs, including the following:

- Healthy Babies - Oconto County
- Mentoring Program
- Parenting Resource Center of Oconto County
- Oconto County Healthy Hearts Project
- Child Welfare/Reunification Services
- Youth Activities such as “Teen Court”
- ParentLink
