Autumn

Harvest your finished compost. Use as a mulch in your flower beds or vegetable garden.

Greens & Browns
(Nitrogen rich materials) (Carbon rich materials)

- Fruit and vegetable scraps
- Coffee grounds
- Grass clippings
- Plant trimmings
- House plants
- Cut flowers
- Egg shells
- Dry leaves
- Wood chips
- Sawdust
- Straw
- Twigs

Winter

Keep your composter going during the cold weather by adding kitchen scraps regularly.

Summer

To keep your composter in top condition, just layer and stir. Cover each layer of kitchen scraps with leaves or peat moss and poke or stir the pile often.

Spring

Time for a fresh start. Empty the composter, use the finished compost in your garden and start a new pile with the remainder.
