CONDITIONAL USE STANDARDS AND DIAGRAM OF PLANS

GENERAL STANDARDS: General performance standards and specific design standards for approval of a conditional use are provided for each zoning district. Below are general standards that the Board of Adjustment Committee will address in review of an application for a conditional use. These conditions include, but are not limited to, specifications of:

1. Minimum parcel size
2. Parking availability
3. Minimum setbacks
4. All state approvals required for public buildings and/or made part of the zoning permit
5. Attractiveness or physical appearance
6. Ingress / Egress
7. Maintenance
8. Safety of nearby roads
9. Traffic
10. Waste management
11. Erosion control standards
12. The period of time in which all or part of the use may be permitted
13. Landscaping and planting screens
14. Operational controls
15. Deed restrictions
16. Location of structures, docks, piers, or signs
17. Type of construction
18. The obtaining of other permits required by the State of Wisconsin, Federal Government Agencies, and any other Oconto County Ordinances as a condition of the conditional use permit, must be completed prior to the issuance of the Conditional Use Permit.

Please include information in the application on these general standards as they would apply. An applicant must demonstrate that the proposed project complies with the standards noted for the appropriate zoning district. The decision to grant or deny a conditional use permit is discretionary. (i.e. permit may be denied if the project cannot be tailored to a site without significant harm to ordinance standards and objectives)

Where the zoning district contains no standards unique to that district or use, the following standards shall apply:

1. That granting of a conditional use will not violate the spirit or intent of the zoning ordinance.
2. That the use allowed would not be contrary to the public health, safety, general welfare, or which would be substantially adverse to property values in the neighborhood affected.
3. That the use shall not constitute a nuisance by reason of noise, dust, smoke, odor, or other similar factors.

Diagram of Plans: In most applications a diagram of plans must be submitted. This diagram must provide sufficient detail for review of the standards that may apply to the application. This may include locations of existing or proposed buildings, accommodations for parking areas, proximity to navigable waters, floodplain delineation, contour lines for review of excavations and erosion control measures, detailed cross sections, etc...

Although it may not be necessary in all applications, a survey by a registered land surveyor is recommended for showing detail. Detailed proposals assist the Board of Adjustment in the review of the conditional use application. **As noted above, the applicant must demonstrate that the proposed use complies with the standards noted for the zoning district.**

All applications must be received by the Oconto County Planning and Zoning Office prior to the first of the month in order to be scheduled for the following month's public hearings. Please note that incomplete applications will not be processed. Once the complete applications has been processed, you will be notified of the date and time that the Board of Adjustment will conduct an inspection of the property and hold the subsequent hearing at the Town hall. You or your agent is required to attend both the onsite and hearing.

Please note that postponement / rescheduling of a public hearing due to the applicants error in submittal or failing to attend the onsite and/or public hearing will be charged a rescheduling fee of \$150.00.
